

SUMMARY

Final-year Artificial Intelligence student at Princess Nourah University with hands-on experience in NLP, Generative AI, and Computer Vision. Skilled in Python, machine learning, and data analysis.

EDUCATION

Princess Norah University – 2022-2026

Bachelor of Artificial Intelligence , College of Computer and Information Sciences

GPA (4.92) out of 5

Honors and Awards

- Standardized AI Exam – Certificate of Achievement, Princess Nourah University (2025)

EXPERIENCE

Projects

- Coffee Recommender BERT** (Personal Project) – 2025
Arabic coffee recommendation system using CAMEL-BERT, PyTorch, and Flask to provide personalized suggestions based on tasting notes, roaster data, and product names.
- Quest Analytics RAG Assistant** (Personal Project) – 2025
RAG chatbot built with LangChain, IBM Watsonx.ai, and Chroma; supports PDF ingestion, semantic retrieval, and real-time Q&A through a Gradio interface.
- Saudi Cultural Heritage Storyteller** (Course Project) – 2025
Story generation app using ALLAM-7B with prompt engineering and Gradio interface.
- Smart Vehicle Gate Access System** (Course Project) – 2024
Arduino + Python (OpenCV + Tesseract OCR) for license plate recognition and automated gate control.
- Rahhal – AI Travel Planner** (Course Project) – 2024
Streamlit app integrating GPT-4 itinerary generation, LSTM weather forecasting, and Unsplash API for destination images.

VOLUNTEERING CONTRIBUTIONS

Google Developers Group (GDG)

Aug 2024 – Jul 2025

Co-Leader of Content Writing Committee

- Led and organized content writing initiatives for the GDG student community.
- Coordinated with team members to deliver technical and educational articles.

Maeen Organization – Ajyalna Al-Waeda Initiative

Jul 2023 – May 2024

Content Writer (Member, Content Writing Committee)

- Created educational content to support computer science students in their first year.

COURSES & CERTIFICATES

- Generative AI Language Modeling with Transformers – IBM, 2025
- Explainable Machine Learning – Duke University, 2025
- Prompt Engineering for ChatGPT – Vanderbilt University, 2025
- Virtual Work Experience (AI Developer, Microsoft Azure) – Microsoft, 2025
- Huawei Certified ICT Associate (HCIA) in Artificial Intelligence – Huawei, 2024
- Cisco Certified Network Associate (CCNA) – Routing & Switching – Cisco, 2024

SKILLS

- Programming:** Python, Java, SQL
- AI/ML:** Generative AI, Transformers, LLMs, NLP, Computer Vision, Langchain, RAG, Agents
- Other:** Data Analysis, Team Leadership, Collaboration, Problem Solving, Adaptability

LANGUAGES

- Arabic / Native ,
- English / Professional
